## TANK OR KEG?

### TANK

**TENNENTS LAGER £3.75**  
**IBU 22.5**

Unpasteurised, Unfiltered, just as  
the brew master prescribed.

### IBUs

International Bitterness Units are a chemical measurement of the number of bittering compounds. Usually these will be between 5 and 120. IBUs are generally indicative of how bitter a beer will taste and the more IBUs, the more bitterness. Remember though, taste is a personal preference, you may like a bitter beer, or you may not, but this scale should help with your choice.
